

Updated Information on available resources in American Sign Language , Jan 2025

Edovo App

The Edovo app is now on the Securus tablets. Some of the prisons had a direct link to Edovo on the prison issued tablets. Edovo has now released their app for Securus. The rollout to the prisons using Securus is quickly moving forward.

The Edovo app contains **materials from Deaf Missions including:**

- **the ASL Bible**
- **devotions in ASL**
- **a dramatization of the book of job in ASL.**

The **Alcoholics Anonymous Big Book** is also available in ASL.

If you can direct your Deaf inmates to the Edovo app they should be able to click on Discovery and search for Deaf Missions in the search bar.

Pando App

Crossroads Prison Ministry has a video in ASL available on the Pando app. If you go to the Pando app and search for **“doing time”** it will take you to a list of their videos. If the video is interpreted it will have (with ASL) by the title. My understanding from Crossroads is that they plan to upload more videos with ASL.

Jesus Movie

Deaf Missions has completed the Jesus movie entirely in ASL with all Deaf actors. Even Jesus signs for Himself. They feel that it is important for Deaf individuals to know that Jesus understands their signs. Please contact: lisalbrogers@gmail.com to receive the DVD and the license to show it within the prison system for an unlimited number of times for a year. *There will be NO COST to you. The DVD can be shown throughout your entire correctional system not just at one facility. It has subtitles so the showings can be available for hearing individuals if desired. If you are interested in this the DVD will be shipped to you and the license sent to you via email.*
